

Letter from the President

Date: 10/30/22

To: Eagle Rock Homeowners

We held our mandated yearly community meeting last week. It went well from the HOA Board's perspective. We communicated all necessary information that our community would need.

The only thing missing was our community homeowners...it was quite disappointing to see the very limited turnout!! Three homesites were represented...(not counting the Board members in attendance). While I'm sure that there are reasons for some to not be there, I'm pretty sure that for many it was simply a lack of interest....I was advised of one family who were unable to attend....mostly there was no response...just an air of indifference.

Additionally, for safety reasons, we had requested everyone's current contact information to include your cell phone number....once again a very small number complied.

I hope this new year brings a renewed interest in your community....because we on the Board remain committed to the safety of our community, the home values in our community, and the appearance of our community. Having your interest would be very helpful.

To those in the community who attended our meeting...Thank you!! The same thank you to the few who supplied your current contact information.

I'm always available to discuss anything...

Paul Wroten
President, Eagle Rock HOA Board
